

ADEKUNLE AJASIN UNIVERSITY, AKUNGBA-AKOKO, ONDO STATE
INSTITUTE OF PART-TIME PROGRAMMES (IPTP)

DEPARTMENT OF COMPUTER SCIENCE

WEEKLY CONTINUOUS ASSESSMENT TEST (CAT)

NAME: FALAJIKI CHRISTIANA

MATRIC NO / REG. NO: 240813092

MATERIAL NO: 034

LEVEL: 300

COURSE: CSC308

PROJECT TITLE: IRO (Issues Reporting Outlet) — System Solution & Documentation

1. Software Requirements Specification (SRS)

1.1 Functional Requirements

User Identification & Reporting: The system shall allow users (Students and Indigenes) to submit issue reports with optional anonymous toggles.

Categorization: The system shall categorize issues by community stakeholder group (e.g., AAUA Student, Akungba, Iwaro, Etioro, Ayegunle).

Status Tracking: The system shall generate a unique reference ID for each submitted issue to enable real-time tracking.

Admin Dashboard: The system shall allow authorized administrators to review, update status (Pending, In Progress, Resolved), and filter submitted issues.

1.2 Non-Functional Requirements

Usability: Simple, responsive user interface accessible on mobile and desktop web browsers.

Security & Confidentiality: Protection of user identities for sensitive reports.

Performance: Instant page load and submission confirmation under basic internet connectivity.

2. Object Listing (Class / Data Entities)

User Object (User)

Attributes: userID , userType (Student / Indigene), communityLocation (Akungba, Iwaro, etc.), email .

Issue Report Object (IssueReport)

Attributes: reportID , title , category , description , location , urgencyLevel , isAnonymous , dateSubmitted , status .
: adminID , username , role .

Methods: updateReportStatus() , deleteReport() , filterReports() .
